**Re: HIMCO Dump Superfund Site**  
**Our File No. 2619-4**

Dear Mr. Johnson:

I am writing as a follow-up to Jerry Maynard's September 2 letter regarding the HIMCO Dump Superfund Site, by which Jerry (among other things) transmitted five PRP contact information lists to you. The purpose of my letter is merely to point out (1) that the four lists that are in the same format were provided as an easy guide to the status of the various PRPs that EPA has identified over time, and (2) that the single list set up in a three-column format contains PRP contact information that was current as of August 31 with respect to all parties to which EPA directed its September 26, 2003 General Notice Letter. Accordingly, EPA should include all of the "PRP Group Contact Address" information in all future EPA mailings and other communications, specifically including any Special Notice letters the agency may issue, regarding the HIMCO Dump Superfund Site.

Thank you very much for your consideration.

Very truly yours,

W.C. Blanton
